

Expected Requirements:

Create 3 Power BI pages with specific visuals:

Visual 1: App Landscape

- Total unique apps (KPI Card)
- Review count over time (Line Chart)
- Reviews_count vs. average rating (Scatterplot with interpretation)

Visual 2: Reviews

- Average of weighted helpful reviews (Card)
- Average rating vs. developer response (Scatterplot)

Visual 3: App Reviews

- Create relationship between Apps and Reviews tables
- Developer vs. sum of rating (Bar Chart)
- Developer vs. average helpful review (Bar Chart)
- Developer responsiveness (Bar Chart, filtered for apps with 500+ reviews)

Part 4: Submission
